M7 Pro Robotic Vacuum Cleaner

Vibration mopping

Imitating manual wiping by latest technology, 2 separate mopping parts working in vibration brings cleaner result, E-controlled water tank help you control the water flow in different rooms and avoid seepage.

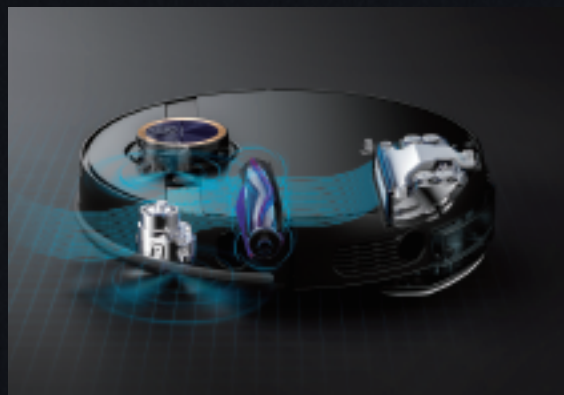

5th Generation of LDS

Laser navigation results high precision mapping in cm-level, breakpoint cleaning support, advanced map function support.

30 sets of sensors

Brilliant path planning with anti-collision and anti-fall, even know your home better than you.

4000Pa BLDC motor

Super BLDC motor brings excellent cleaning experience, with 4 levels to choose.

Smart mapping for multi-floors

Instant auto-mapping of your home by using 30 sets of sensors. The M7 Pro creates a fully editable map of your home with virtual wall and forbidden area to control the cleaning zones.

Washable dustbin

Simple enough maintenance, you could just wash the dustbin and wipe it dry.

Auto return-charge

Every time the robot finishes cleaning, it would go to the dock station to charge it self, easy for your next cleaning!

Different cleaning mode

Selective room or area cleaning, one by one cleaning, deep cleaning, zigzag cleaning, fitting all your cleaning needs.

5200mAh big battery

Long battery life for 180min and covering 250m².

Carpet detection

Maximum the suction power when running on carpet, back to normal after leaving carpet.

App & voice control

Control suction level & water flow, edit map, schedule your cleaning, monitor the accessories life, convenient voice control... all available on Msmartlife.
